<b>Notes and Questions:</b>	

## F-03: Site Configuration

**Figure 3: Site Configuration Wireframes**

<b>Priority:</b>	Essential
<b>Effort:</b>	Days
<b>Risk:</b>	5-Risks
<b>Functional area(s):</b>	Administration
<b>Use case(s):</b>	<a href="#">UC-07</a> , <a href="#">UC-08</a>
<b>Description:</b>	<p>The site configuration feature allows the administrator to:</p> <ul style="list-style-type: none"> <li>• Modify the site's details \ description.</li> <li>• Configure the site's theme.</li> </ul> <p>Requirements and constraints:</p> <ul style="list-style-type: none"> <li>• Each page (within this feature) should show the administrative menu.</li> </ul>

	<ul style="list-style-type: none"> <li>Should not allow blank details on mandatory fields.</li> </ul> <p>Risks:</p> <ul style="list-style-type: none"> <li>Broken authentication and session management.</li> <li>Injection.</li> <li>Cross-site scripting (XSS).</li> <li>Missing function level access control.</li> <li>Cross-site request forgery.</li> </ul>
<b>Notes and Questions:</b>	

## F-04: Contributors Management

**Figure 4:** Contributors Management Wireframes

<b>Priority:</b>	Expected
<b>Effort:</b>	Days
<b>Risk:</b>	5-Risks
<b>Functional area(s):</b>	Administration
<b>Use case(s):</b>	<a href="#">UC-09</a> , <a href="#">UC-10</a> , <a href="#">UC-11</a> , <a href="#">UC-12</a>

<b>Description:</b>	<p>The contributors management feature allows the administrator to:</p> <ul style="list-style-type: none"> <li>• List down contributor accounts.</li> <li>• Add a new contributor account.</li> <li>• Modify a contributor account.</li> <li>• Delete a contributor account.</li> </ul> <p>Requirements and constraints:</p> <ul style="list-style-type: none"> <li>• Each page (within this feature) should show the administrative menu.</li> <li>• Should not allow blank details on mandatory fields.</li> <li>• Should not allow duplicate records on uniquely constrained contributor data.</li> </ul> <p>Risks:</p> <ul style="list-style-type: none"> <li>• Broken authentication and session management.</li> <li>• Injection.</li> <li>• Cross-site scripting (XSS).</li> <li>• Missing function level access control.</li> <li>• Cross-site request forgery.</li> </ul>
<b>Notes and Questions:</b>	

## F-05: Categories Management

The image displays three screenshots of a web application interface for 'stepostr - Categories'.

**Top Left Screenshot: stepostr - Categories**  
This screenshot shows the main categories management page. It features a sidebar menu with options: Administration, Account Mgmt, Site Configuration, Contributors Mgmt, Categories Mgmt, and Pages Mgmt. The main content area displays a list of categories (Item 1, Item 2, Item 3, ..., Item n) with 'Edit | Delete' links for each item.

**Top Right Screenshot: stepostr - Add Category**  
This screenshot shows the 'Add Category' form. It includes a sidebar menu similar to the first screenshot. The main content area contains form fields for 'Name' and 'Description', each with an 'Enter Text' placeholder. There are 'Save' and 'Cancel' buttons at the bottom.

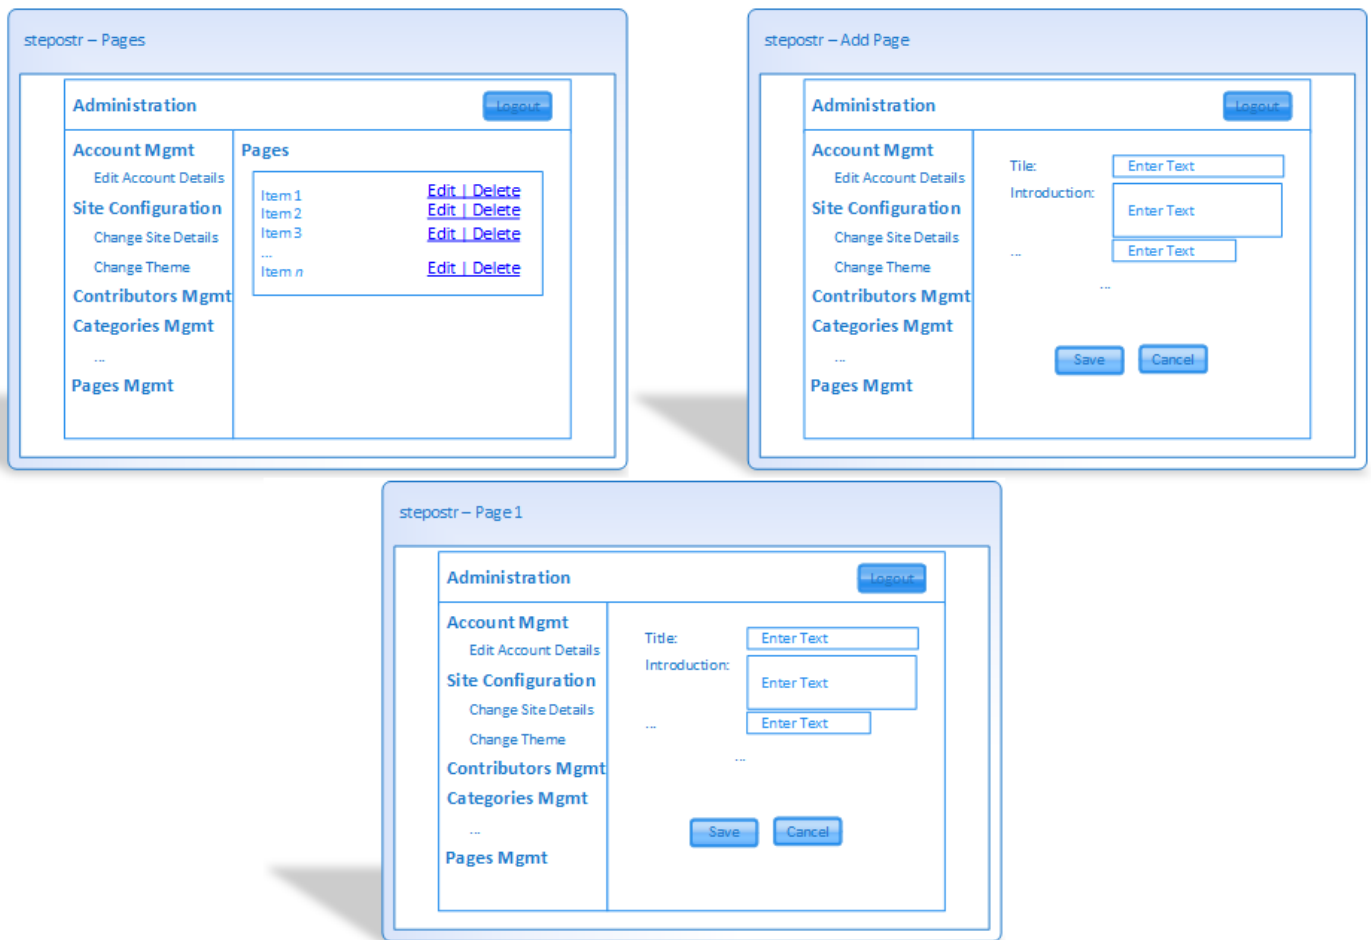

**Bottom Center Screenshot: stepostr - Category 1**  
This screenshot shows the 'Category 1' form. It includes a sidebar menu similar to the first screenshot. The main content area contains form fields for 'Name' and 'Description', each with an 'Enter Text' placeholder. There are 'Save' and 'Cancel' buttons at the bottom.

**Figure 5:** Categories Management Wireframes

<b>Priority:</b>	Essential
<b>Effort:</b>	Days
<b>Risk:</b>	5-Risks
<b>Functional area(s):</b>	Content Management
<b>Use case(s):</b>	<a href="#">UC-13</a> , <a href="#">UC-14</a> , <a href="#">UC-15</a> , <a href="#">UC-16</a>
<b>Description:</b>	<p>The categories management feature allows the administrator to:</p> <ul style="list-style-type: none"><li>• List down categories.</li><li>• Add a new category.</li><li>• Modify a category.</li><li>• Delete a category.</li></ul> <p>Requirements and constraints:</p> <ul style="list-style-type: none"><li>• Each page (within this feature) should show the administrative menu.</li><li>• Should not allow blank details on mandatory fields.</li><li>• Should not allow duplicate records on uniquely constrained category data.</li></ul> <p>Risks:</p> <ul style="list-style-type: none"><li>• Broken authentication and session management.</li><li>• Injection.</li><li>• Cross-site scripting (XSS).</li><li>• Missing function level access control.</li><li>• Cross-site request forgery.</li></ul>
<b>Notes and Questions:</b>	

## F-06: Pages Management

**Figure 6: Pages Management Wireframes**

<b>Priority:</b>	Essential
<b>Effort:</b>	Weeks
<b>Risk:</b>	4-Risks
<b>Functional area(s):</b>	Content management
<b>Use case(s):</b>	<a href="#">UC-17</a> , <a href="#">UC-18</a> , <a href="#">UC-19</a> , <a href="#">UC-20</a>
<b>Description:</b>	<p>The pages management feature allows the administrator and the contributors to:</p> <ul style="list-style-type: none"> <li>• List down published pages.</li> <li>• Add \ publish a new page.</li> <li>• Modify a page.</li> <li>• Delete a page.</li> </ul> <p>Requirements and constraints:</p> <ul style="list-style-type: none"> <li>• Each page (within this feature) should show the administrative menu.</li> <li>• Should not allow blank details on mandatory fields.</li> <li>• Should not allow duplicate records on uniquely constrained page data.</li> </ul> <p>Risks:</p>

	<ul style="list-style-type: none"> <li>• Broken authentication and session management.</li> <li>• Injection.</li> <li>• Cross-site scripting (XSS).</li> <li>• Cross-site request forgery.</li> </ul>
<b>Notes and Questions:</b>
